One Square Below Court House. PUBLIC LEDGE 4.

A pistol shot and a fight in a gambling oem on the corner of Second street and

North Court, last night, attracted quite a

large crowd of people who expected to see a wounded or dead man, but the ris-

tel ball sped wide of the mark and noth-

ing resulted except a smashing of glasses

and overturning of tables and a little

free fight over the cards. The police were unable to find the "shooter who turned her loose," he having vamoosed

A lively and very tolerant correspond-ent of the Avalanche proposes to ram a corn cob down the throats of

those who beg leave to differ with him

on the subject as to whether or not Mr.

Mullett, Inte United States Supervising

Architect, is a great architectural genius.

When the correspondent carries his cobs

around and attempts to use his patent he

may find himself going through a cornshelling machine. The irate correspondent should read Supervising Archi

tect Potter's opinion of Mullett and his

fraudulent contracts for government buildings as published in the New York

journals before he becomes a corn cob

Our reporter was offered several dele-

gate proxies yesterday and he was solicited to go to Nashville and immortalize

himself at the Gubernatorial Convention by making a motion to adjourn, lay on the table or take a recess; but our un-

patriotic representative refused the se-

ductive invitations in a manner worthy

of a Joseph. He has no ambition to pay

his own expenses for the pleasure of attending to some other man's business,

and not being a millionaire or a noted

ward politician he concluded to hold the

fort on the bluff until the boys come home. Like a patriot, however, he in-

dorses in advance the action of the con-

house and discussed the plan of the November campaign. Cloudy weather and rain areas are predicted for to-day. The rain areas

no doubt disturb those servants who have charge of basements. The constant showers of rain which have fallen during the past two weeks cause the planters to grumble no little in many water-favored localities.

Commissioner of Election Ed Wor-

sham has received notification of a con-

test over the offices of Magistrate and Constable in the Third (Lucy) district. The poisoning of unmuzzled dogs by the police continues without intermis-

sion. Every morning scores of dead canines can be found on the streets and alleys. A Nashville journal says that the Adjutant General will be engaged for the

next week in attaching the Governor's signature to three thousand magisterial commissions.

J. B. White and Wiley Thompson, charged with larceny, were committed d to jail by the Recorder this morning, Jack Scott, arrested on suspicion of larceny, was also committed. No one knows better than Judge Brooks, of the Appeal, that the scissors

cuts out news, political, mercantile, marine and miscellaneous for the people, and that the paste-pot sticks it into them. On many avenues and suburban streets society seems deserted, owing to the fact that numbers of the popular

belles and other fashiouable people have gone touring Eastward and Northward. Croquet does not flourish this season in Memphis as it did last year. Some new lawn game will have to be invented for the young tolks who desire to engage in out door sports.

A pair of steel leg-braces, such as are used by persons who suffer from mal formation of joints, can be seen at the station-house. The braces are supposed to have been stolen by a negro woman from some residence. The game of "pedro" has become the popular card game with numbers of jolly

citizens. It has taken the place of euchre, seven-up, casino and whist, especially when the cigars and drinks are Madame Rumor and her back-biting
